OBJECTIVE

First-year Computer Science student with foundational skills in Python, C, and C++. Exploring core areas of software development through coursework and hands-on projects. Seeking opportunities to apply problem-solving and collaboration skills in real-world settings.

EDUCATION

Bangladesh Army International University of Science & Technology Sep 2024 - Present B.Sc. in Computer Science & Engineering

Relevant Coursework

- Introduction to Programming with Python
- Structured Programming in C
- Fundamentals of C++ Programming
- Discrete Mathematics for Computer Science
- Calculus and Linear Algebra
- Academic English for Technical Communication

SKILLS

- Programming Languages: Python, C, C++
- UI/UX Design: Figma, Wireframing
- **Soft Skills:** Team Collaboration, Communication, Problem Solving, Adaptability, Time Management
- **Tools:** Microsoft Office (Word, Excel, PowerPoint), Google Workspace(Docs, Sheets, Slides), Visual Studio Code

PROJECTS

Hackathon – Junior Segment

May 2025

- Designed a mobile app interface prototype as part of a team to help students track and improve personal and academic growth in a 24-hour university hackathon
- Used Figma and PowerPoint to create and present interactive design solution to judges
- Earned 14th place among 30+ teams; strengthened skills in interface planning, visual prototyping and team collaboration

EXTRACURRICULAR ACTIVITIES

BAIUST Computer Club – Member

Oct 2024 - Present

- Completed weekly beginner coding workshops and problem-solving sessions
- Engaged in team-based coding challenges and peer led discussions on practical applications of software tools, programming practices and emerging technologies
